Q. 12. Read the passage below and answer the questions:

The marble needed for its construction was quarried from the mines of Greece and sent to Italy, from where each panel was cut and shaped before being transported to Delhi. Set among sprawling green lawns, the petals of this grand lotus are surrounded by nine pools that represent the floating leaves of the flower. The interior dome is spherical and patterned after the innermost portion of the lotus flower. Light and water are used as the fundamental design elements. The nine entrance petals complete the design. External illumination is arranged to create the impression that the lotus is afloat on water.

The Lotus temple is a spectacular combination of architecture, nature and culture. It combines the grandeur of a palace and the piece of a monastery. There are no priests, idols, pictures, rituals or sermons here. It is a place for communication between man and his God. Daily public services here include recital of verses from the Holy books of all religions.

Answer the following questions.

1. Where is the Lotus Temple located?
2. When was the Lotus Temple opened to public?
3. The marble needed for the construction of Lotus Temple was obtained from the quarries of
4. What is the shape of the interior dome of the Lotus Temple?
5. Which are the fundamental design elements used in the construction of Lotus Temple?
